Information on product discontinuation

Dear Customers,

Herewith we would like to inform you about changes in our product range.
The articles of the **EPIC® Renewables** series will be discontinued and are no longer available for regular order.
Remaining quantities can be sold if stocks last.

EPIC® SOLAR:

As part of the ongoing development of our product portfolio and in light of technological changes in the photovoltaic market, the products in the EPIC® SOLAR 4 series are being discontinued. The series has already been replaced by more advanced product generations and no longer meets the current requirements of modern photovoltaic systems.
Products from the EPIC® SOLAR 4 GEN2 series are available as replacements. The corresponding alternative products can be found following the link to the product list in the online shop:

Article overview product discontinuations

These offer you the following advantages:

- An advanced product platform with long-term availability
- Designed to meet the requirements of modern photovoltaic applications
- Support for larger conductor cross-sections to enable higher power transmission
- Optimized standardization within the EPIC® portfolio
- A future-proof product generation with expanded application possibilities
- Simplified product selection thanks to a harmonized portfolio

EPIC® BATTERY (red variant):

As part of our ongoing efforts to optimize our product portfolio, the red versions of the EPIC® BATTERY connectors are being discontinued.
Corresponding connectors in orange are available as alternatives. The respective alternative items can be found following the link to the product list in the online shop:

Article overview product discontinuations

These offer you the following advantages:

- A product platform with long-term availability and future-proof design
- Unchanged electrical and mechanical functionality
- Continued reliable protection against incorrect mating thanks to the existing mechanical coding

- Optimized standardization within the product portfolio
- Improved availability through a focus on market-driven variants
- Simplified inventory management and portfolio harmonization

Please note that some successor products may not be completely identical to the discontinued items in all cases. We therefore recommend conducting a technical review before use. As indicated in the product list, existing components, contacts, accessories, and add-on parts remain compatible and available. Of course, the successor and alternative products continue to meet the high standards of quality, reliability, and safety that you have come to expect from our EPIC® products.

All information can also be found on our website in the product notifications section:
