

Guide for brass surcharge calculation

As for brass items, percentage surcharge is calculated on the selling price. The brass basis is € 150,00/100 kg of brass. Value stated in an offer is taken as the initial base.

Starting with a brass quotation of € 200,00 per 100 kg of brass, a 7,5 % brass surcharge will be charged on all LAPP brass articles. For each additional full € 50,00 per 100 kg of brass, an extra 7,5 % brass surcharge counted from the net value of the goods appears. (See table below)

Calculation basis:

Metal surcharges for brass cable glands are based on the stock exchange quotation of the brass. In the case of articles containing metals, we reserve the right to make appropriate adjustments in the event of extraordinary changes in raw material prices. As of 23.03.2020, the average quotation of the respective previous month shall be used for calculation.

This information is limited to the invoicing of Lapp brass products only.
