- **Intralogistics**

Logistics in figures – U.I. Lapp GmbH

Storage and logistic capacity	approx. 155.000 m ²
Logistics employees	approx. 510 employees
Deliveries per day	approx. 6.500
assortment	approx. 40.000 articles
Just-In-Time Supplier	yes

At our headquarters in **Stuttgart-Vaihingen**, the logistics center is used to store our system products and single-wire solutions. An automatic high-performance carousel using pick-by-light ensures fast and safe retrieval of the articles. With the logistics and service centers in Ludwigsburg, Stuttgart, Hanover and Wrocław, U.I. Lapp GmbH has a highly modern and complex logistics system.

LAPP Logistics centers

Ludwigsburg logistics Center

In the Ludwigsburg Logistics Center, cable drums are stored and retrieved fully automatically by storage and retrieval machines in an area of around 30,000 m². A specially developed and patented mandrel gripper enables fast and gentle storage via special system pallets. In addition, modern driverless transport systems bring the cable drums to the cut-to-length machines.

Hanover logistics center

The logistics center in Hanover is equipped with heavy-duty & high-performance machinery for shipping large drums and also has special cutting machines with traction force limitation for the perfect handling of special product groups such as sensitive fiber optic cables.

Wroclaw logistics center

The logistics center in Wroclaw, Poland, mainly stores infrastructure cables with large cross-sections on an area of 60,000 m². Heavy-duty forklifts and special cut-to-length machines are available for the provision and shipment of these heavy infrastructure cables or cable drums.

Lapp Group values

U.I. Lapp GmbH is committed to its social responsibility in an open and fair world trade as a decisive prerequisite for further economic growth. As a family-run company, we bear a high level of social responsibility towards our customers and employees.

- **Customer-oriented**

We serve our customers so that they are successful in their markets.

We work with our partners in a reliable and trusting manner

- **Success-oriented**

Success orientation is important to us in order to secure our independence and profitable growth

- **Familiar**

Long-term orientation, warmth and closeness of our family business counteract coldness and anonymity

- **Innovative**

For us, innovation means future-oriented solutions for our customers
