Product change for heat shrinkable tubing of the PROTECT and PROTECT-HF series

Dear Sir or Madam,

herewith we'd like to inform you about changes in our product range.

The following shrink tubing articles of the PROTECT and PROTECT-HF series will be changed from the current length of 1.22m to the new length of 1.00m in an ongoing process. There is also a change in the quantity of the contents of a packaging unit. The time of the changeover depends on the quantity of items still in stock. All articles on this list will be converted to the new 1.00m lengths by 31 August 2024 at the latest.

The existing article number remains as such for the articles with the changed lengths.
