Change Details	
The product range is regularly reviewed and continuously optimized. The rectangular connectors of the EPIC H-A (10,16), and EPIC H-B (6, 10, 16, 24) series are being converted to the new design. The pre-assembled gland body will be discontinued in the future. The gland body is still available separately as an accessory. In addition, there is a version as an adapter from M to PG thread. The technical properties remain unchanged by this change.	
Currently	New
Old design with pre-assembled gland body 	New design with gland body as accessory.
