To all customers of the EPIC® H-A and H-B product series

21.11.2025

### Product Design Change EPIC® H-A and H-B Housings

Dear customers,

Dear business partners,

We would like to inform you about an update in our product range.

Our EPIC® H-A and H-B panel and socket mount bases have been redesigned. Particular attention has been paid to ensuring that all technical characteristics and compatibility are fully preserved:

- The new housings can still be combined with the previous housings.
- All previously used connector inserts can also be used in the new generation of housings.

For better orientation, we provide you with sample images of the revised housing version.

Panel mount base so far (left) and new (right) (example image)

Surface mount base so far (left) and new (right) (example image)

In addition, you will receive an overview of the affected articles, which allows you to assign them clearly and transparently.

Part no.	Description	Type
<b>H-A 10</b>		
10442000	H-A 10 AG-LB	Panel mount base

Remaining stocks of the previous product design are still available. After they have been used up, they are delivered exclusively in the new design. During the transitional period, there may therefore be mixed deliveries.

With this revision, we are ensuring that you will continue to benefit from the usual quality and reliability of our products in the future – while maintaining the same functionality and compatibility.

We will be happy to send you further information and advise you personally. Your responsible contact person will be happy to assist you at any time.

Best regards,

U.I. Lapp GmbH
