# LOGISTICS SOLUTIONS
How to efficiently handle cable drums and cable rings

LAPP

>> Transport, storage and unwinding solutions

DRUM CARDBOARD

Cardboard construction for LAPP drums with a flange diameter of 40 cm and a max. weight of 30 kg.
Article number: 85008061

BENEFITS
> Orderable with or without cable drum
> Stackable at job site
> Manual transport
> Protection from damage and dirt

DRUM PALLET

Pallet construction with built-in rollers for drums with a flange diameter of up to 90 cm and a load capacity of 500 kg.
Article number: 85008062

BENEFITS
> Orderable with our without cable drum
> Pallet features four-way entry
> Reduced risk of damage
> Qualified for export (IPPC standards)

CHAMPION DRUM DISPENSER

Cable dispenser in lightweight construction in two sizes available. Both are suitable for drums with a flange diameter up to 90 cm and a load capacity of 200 kg. In addition steering rollers are available for transportability.
Article number: 85008070 CHAMPION 52
   85008071 CHAMPION 67

BENEFITS
> Lightweight
> Easily adjustable
> Easy to load
> Minimized risk of drum damages

ROTARY PLATE

LAPP Drums with a flange diameter up to 60 cm can be unwind with the rotary plate. Up to six rotary plates can be placed on a LAPP pallet.

BENEFITS
> Orderable with our without cable drum
> Controlled unwinding due to brake mechanism
> Suitable for damaged drums
> Space-saving as multiple drums can be unwind on one pallet

SPINOFF

The SpinOff is a mobile and ergonomic cutting tool for drums with a flange diameter up to 75 cm.
Article number: 85008066

BENEFITS
> Weatherproof
> Flexible and light
> Space-saving due to folding mechanism
> Easy to reload

DRUM TROLLEY

Mobile storage for max. 8 drums with a flange diameter up to 50 cm and a load capacity of 400 kg.
Article number: 85001631

BENEFITS
> Easy unwinding of multiple drums
> Only needs one-man power to transport drums
> Braking spool axis supports unwinding

≫ Single core solutions

> TRONIC Box

The TRONIC Box is the perfect solution for storing, transporting and handling single cores. These boxes are usually used in combination with a compatible single core trolley.

Article number: 85001632
Capacity: 1 single core

Compatible single core trolleys:

TRONIC single-core trolley 12

Article number: 85001624
Capacity: 12 single cores

TRONIC single-core trolley 48

Article number: 85001629
Capacity: 48 single cores

> TRONIC module

The TRONIC module consists of two TRONIC single core boxes connected via a rack. The rack design of the TRONIC modules enables them to be stacked with each other. They are also compatible with the 6x2 and 18x2 trolley solutions.

Article number: 85001625
Capacity: 2 single cores
Compatible single core trolleys:

TRONIC MODULE
single core trolley 6x2

Article number: 85001621
Capacity: 12 single cores

TRONIC MODULE
single core trolley 18x2

Article number: 85001622
Capacity: 36 single cores

» Single core solutions

> S 12 single core trolleys

The S 12 single core trolley is the perfect solution for storing, transporting and handling single core spools.
Article number: 85001628
Capacity: Up to 18 spools

» Customized racks

Every drum and ring rack is customsized. To get an offer for a drum rack please provide us how much space (L x W x H) is available, the number and sizes of drums.
For the ring rack please provide us the number and measures of the ring and also the cable types.

>> Specialised drum solutions

PLASTIC DRUM

Our various drum solutions ensure that your goods are packed and processed in the best way possible. When cables are used in rooms with specific hygiene regulations, we can dispatch your goods on **polypropylene drums**.

MULTI-CHAMBER DRUM

The **multi-chamber drum** can be used for stranding at your construction site. Typically, a material with the same length (e.g. 3 x 500 m) is wound on to this drum. For large drums with a flange diameter of 160 cm or more, free transport racks will be provided for secure transportation and easy handling.

LAMIFLEX CASING

Lamiflex casing for seaworthy transport ensures your goods receive maximum protection against external influences such as moisture, UV radiation and insects.

>> Other logistics services

ON-SITE HUB

The **On-Site Hub** is a robust and customised storage container enabling optimal storage for all ordered cable accessories. The container can be assembled and fitted in accordance with your exact requirements.

KANBAN

Our needs-based **kanban solutions** ensure that cables, leads, connectors and cable glands are always available in the required quantity. So you can select the right solution for your application from our array of kanban systems. We will gladly support you to find the right solution.

We also offer **customised labels** and **delivery notes. Cable sets,** markings and **inch-perfect cable lengths** can also be customised.
